I am a world-class, unique, conscientious User Experience professional and love UI, UX, Usability and Product design

Senior UX designer – www.ginlo.net, Munich, Germany (Nov 2018 - Nov 2019)

Chief Architect of the Ginlo messaging ecosystem - User research, Market analysis, Vision poster, Whiteboarding, Wireframing, Information architecture, UI/UX/Interaction, Prototyping and Usability analysis of a suite of mobile (iOS+Android) and web products. Ginlo is a disruptive messenger which replaces normal texting with communication through thoughts, actions, visuals, symbols, services and emotions.

Senior/Lead UX Designer – Aviso, Menlo Park, USA (Feb 2017 - October 2018)

Design lead of the entire Aviso UI (AI forecasting for sales). End-to-end UX work for the one responsive web application involving Data visualization, Data science, Infographics, complex charts and graphs.

Senior Interaction Designer – Wells Fargo, San Francisco, USA (Jan 2015 - March 2016)

Extensive interaction design of the digital payments section of the authenticated and main public site
Native mobile (iOS, Android and iPad), responsive web designs of the send money, request money and transfers modules.

UX Designer – Hewlett Packard/Snapfish, San Francisco, USA (Sep 2012 - Sep 2014)

Part of the mobile and responsive web design team and projects

- End-to-end UI/UX design of 3 native (iOS and Android) photo printing apps
- User research, Usability testing, Interaction, UI and Visual design of a few key screens of the new one responsive Snapfish site

UX Designer – SAP AG, Palo Alto, USA (Jan 2010 – Sep 2012)

As a part of the mobile design team, I was involved in the conceptualization, research, design, prototyping and usability testing of SAP mobile applications

- Interaction design and rapid prototyping for several other SAP business mobile and tablet applications includes – ERP search, CRM Sales and Retail execution (iOS platform)
- Requirements gathering, task flow analysis, wireframing and prototyping of the Employee Lookup iPhone and BB applications - done with teams located in Montreal and Budapest
- Contributor to the SAP mobile specifications and requirements documents - UX guidelines for all SAP Android, iPhone, iPad, BB phone and Playbook applications

Interaction Designer - Oracle, Redwood Shores, USA (June 2009 – August 2009)

- Prototyping and testing of 2 Oracle CRM iPhone web apps using HTML/CSS and XML
- User research, design, wire framing and visual design of Intern tracking tool – an internal Oracle web application that deals with intern management and logistics

Experience Design Intern - Intuit, Mountain view, USA (May 2008 – August 2008)

- User centered design, low and high fidelity prototyping of Intuit's QuickBooks cash register plus 1.0 - inventory management and point of sales touch screen product
- Conducted 6 usability tests on the product – involved in the scripting of the questions, setting up of the equipment and proctoring the test

Interaction Designer – Integrated media, WTIU, Bloomington, USA (Sep 2007 – Dec 2009)

Wire framing and high fidelity mockups of sites within - <https://indianapublicmedia.org/>
IU's news website - Designed and developed the multimedia and weekend sections of the site

UI Programmer - iSOFT plc - Chennai, India (Oct 2005 – May 2007)

Designed, developed and tested several product prototypes for iSOFT's chief health care solution *Lorenzo* (deployed across several hospitals in the NHS system, UK)

EDUCATION

MS - Human Computer Interaction and design (August 07 – December 09)

Indiana University Bloomington, USA, GPA – 3.9/4

BE - Computer science and engineering (August 2001 - June 2005)

Anna University – Chennai, India
